

# NW MINNESOTA SOIL & WATER QUALITY LEARNING EXCHANGE

March 25, 2026 | Seven Clans Casino, Thief River Falls

**JOIN US for a soil health and water quality-focused learning exchange designed specifically for Northwest Minnesota.**

This region has a unique agricultural and ecological context, shaped by its crop diversity, soil types, livestock integration, and water resources. Attend to learn from farmers exchanging their knowledge about challenges and successes implementing soil health practices, connect with area Soil and Water Conservation Districts and other organizations, and leave with actionable tools and real-world insights to improve soil health, protect water quality, and strengthen working landscapes across the region.

## FEATURING:

- A keynote presentation with **Dr. Kris Nichols, Soil Microbiologist**
- Breakout sessions
- Lunch & networking
- and a farmer panel

**REGISTRATION  
REQUIRED,  
NO WALKUPS**

Natural Resources Conservation Service  
U.S. DEPARTMENT OF AGRICULTURE
